RE: Asphalt installment

15 Columbus place

Johnson city NY 13790

Johnson City Village

Johnmson City NY

Good Morning Ladies & Gentlemen

I live at 15 Columbus Place Johnson City NY. And ever since the last millings has taken place on Columbus Place. The entrance to my driveway has taken it's toll on two of my wives exhaust pipes and mufflers. A whopping \$233.94 I've had to pay out, to fix her car. Toni, drives a Versa, Which is very low to the ground. And there's no exception to her entering and exiting the driveway.

Is it possible to fix this problem driveway? Very soon? As I don't know how many more mufflers Discount auto is going to have to weld on. Weld on, What a joke. The SOB at Discount Auto, billed me for \$104.-- for two spot welds????

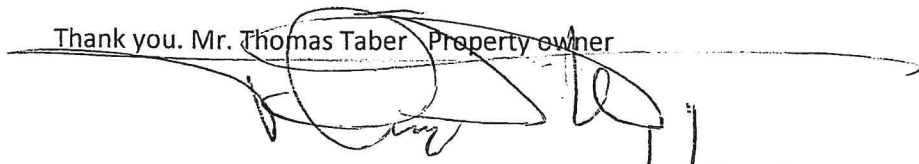

This is the letter telling you/asking you to fix this problem. As the next muffler/tail pipe/exhaust unit, is going to be billed to you.

However, Can it be fixed with conduit? Adding a bump to the driveway with elliminate the the need for my request. And if you have been down Columbus Place. You will see that the neighbors have neglected to take care of their trees. Making the leaves a problem for me and your sewer department. If a asphalt ramp is created, the leave will wash up upon it and down my driveway. That will decrease the value of my property. By allowing additional water and debris to travel down and into my driveway/garage.

Something must be done. You have engineers. I have a car and property to worry about.

Please fix this problem. I can, But, I will have to back charge the Village and we both know, that won't be fun.

Thank you. Mr. Thomas Taber Property owner
