INTRODUCTION

In accordance with Section 104 (a) (3) of the Housing and Community Development Act of 1974, the Town of Union has established a Citizen Participation Plan for the Community Development Block Grant (CDBG) program. The purpose of the Citizen Participation Plan is to provide for and encourage citizens to participate in the development of the Consolidated and Annual Action Plans, any substantial amendments to the Consolidated or Annual Action Plans, Section 108 Loan Guarantees, and the Consolidated Annual Performance and Evaluation Report (CAPER). The Citizen Participation Plan is designed to encourage participation by low-and-moderate-income persons, particularly those living in slum and blighted areas and in areas where CDBG funds are proposed to be used, and by residents of predominantly low-and moderate-income neighborhoods, CDBG Target Areas. The town also seeks to encourage the full participation of all its citizens, including minorities and non-English speaking persons, as well as persons with disabilities. The town will encourage the participation of residents of assisted housing developments in the process of implementing the Consolidated or Annual Action Plans along with other low-and moderate-income residents of targeted revitalization areas in which the developments are located.

The purpose of the Citizen Participation Plan is to indicate the means through which residents of the town may obtain information pertaining to community development and through which residents may become active in the planning, implementation, and evaluation of the five-year Consolidated Plan or Annual Action Plans. The intent is to obtain maximum participation of residents at all stages of the process and to assist citizens so that they can make informed contributions and combine efforts effectively. All aspects of the process will be conducted in an open manner and all information will be available to

citizens upon request. The specifics of the available types of information are discussed later in this document.

Another goal of the Citizen Participation Plan is to involve people who ordinarily are not involved in the process of community development. This group includes members of minority groups, the elderly, the disabled, and people of low-and moderate-incomes. The Citizen Participation Plan has been developed in the hopes that increasing information flow, both to and from these residents, will assist members of these groups so that their opinions may be made known. To accomplish this task, the town has established a system through which citizen articulation may be funneled to the Planning Department and the Town Board and Village Boards and vice versa.
